**ISTANBUL
CHAMBER OF INDUSTRY**

“

*Industrialization
is among our chief national causes.*

*In order to serve and sustain this cause, we will establish and
operate all types of industries, no matter their scale, whose raw
materials are readily available in our country.*

*This is an obligation primarily for the defense of our country as well
for making good use of our products and for achieving the ideal of a
prosper and advanced Turkey in the shortest way possible.*

”

MUSTAFA KEMAL ATATÜRK

Assembly Term. V, Vol. 20, p. 3*

ABOUT US

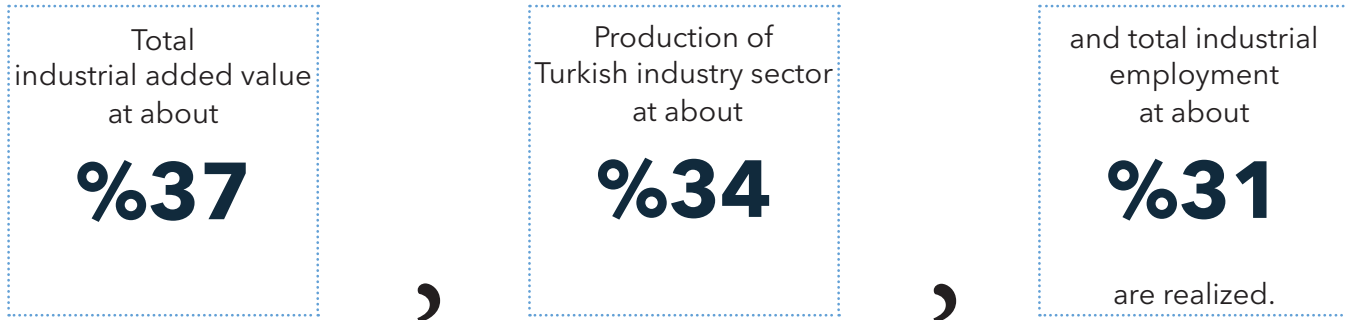

The largest and most well established chamber of industry in Turkey with over 20,000 members today, the Istanbul Chamber of Industry was established in 1952 upon the written request of about 750 industrialists.

The Istanbul Chamber of Industry was initially located in the IV Vakıf Han, before moving to the Kılavuz Han in Sirkeci, and later to the Kruger Han on Meşrutiyet Street until 2017. On June 12, 2017, Istanbul Chamber of Industry renovated with modern technology and moved to the Odakule building. From then on, all the units of the chamber have started to offer services at this building.

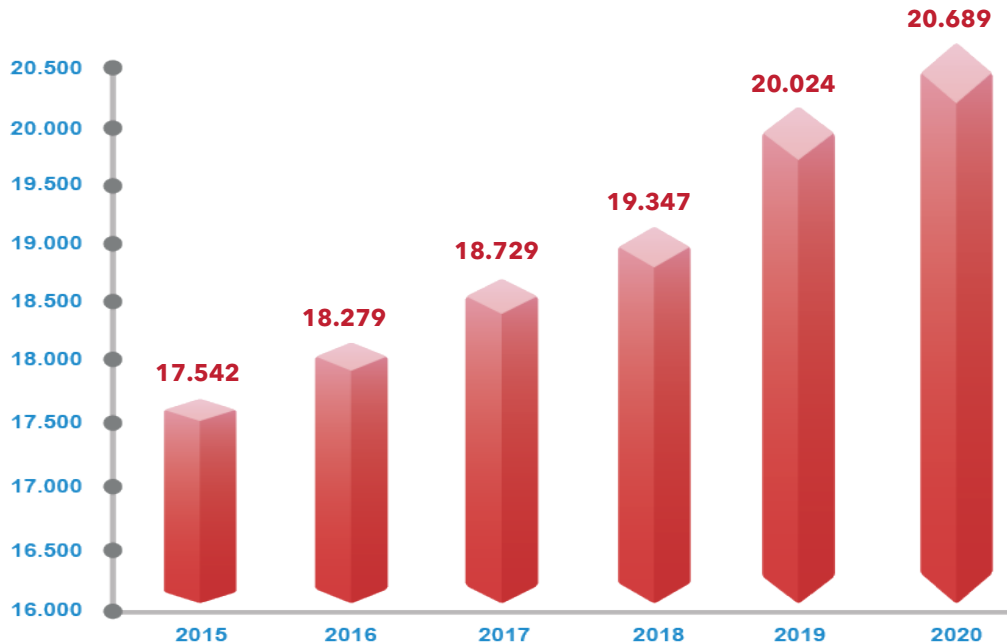

ICI member industrial enterprises have a significant share in the macroeconomic value created in Turkey.

• ICI MEMBER INDUSTRIAL ENTERPRISES

Approximately **33%** of Turkey's Top 500 Industrial Enterprises are ICI Members.

• NUMBER OF OUR MEMBERS BY YEARS

MISSION, VISION AND VALUES

• OUR MISSION

To guide the industrial infrastructure and environment by way of creating information, policies and systems in collaboration with internal and external stakeholders based on domestic and international comparisons;

Offering innovative, high value-adding services to industrial enterprises to contribute to the sustainable development of our industry;

To improve the image of the industrialist and to support decision makers in drafting and implementing legislation.

• OUR VISION

To become an institution that develops Turkish industry on a global scale by increasing sustainable competitiveness and the competences of our industrial enterprises while serving as an efficient stakeholder that leads the way in the industrial environment.

• OUR VALUES

The Istanbul Chamber of Industry is a transparent, inclusive, reliable, determined, realistic and innovative organization that honors universal ethics, social responsibility, and environmental awareness in all activities.

OUR QUALITY POLICY

Istanbul Chamber of Industry, within its institutional duties and responsibilities defined in related law and legislation, aims at fulfilling its customers' needs completely, correctly and timely, while considering the public interest and its members' demands, in a fair and trustworthy manner.

As being one of the major national and international representatives of Turkish Private Sector, Istanbul Chamber of Industry claims to sustain its reason for institutional existence and its role of representing the private sector in the changing world conjuncture. To this ultimate goal, Istanbul Chamber of Industry commits to change the nature of its products and organizational structure into a fit for purpose, dynamic and proactive nature.

- Istanbul Chamber of Industry declares that this institutional commitment, with the co-operation of its employees and members, will be set and maintained by;
- Re-evaluating its mission and policies systematically in accordance with the idea of continual improvement,
- Setting new targets, developing related action plans and implementing these plans by allocating necessary resources,
- Developing new functions, tasks and products appropriate to the new millennium, with regard to its members' demands,
- Improving its technological infrastructure in order to reach, process and disseminate data, information and knowledge,
- Employing, improving and satisfying its human resources, which it considers as the key factor for determining its services' quality,
- Establishing an institutional working environment that supports and appreciates personal and team work achievements and by being a model for public and other institutions, with the scope of its mission and the quality of the services it renders and ensuring sustainability of all these with an understanding of "ICI Service Institution" along with its employees and customers.

OUR OTHER POLICIES

• OUR COMMUNICATION POLICY

The aim of this policy is to increase the level of position of the Istanbul Chamber of Industry in printed and mass media quantitatively, diversify news and share information produced in the institution with members, public and all other stakeholders effectively by using internet, social media and electronic publishing effectively, as well as traditional media tools in order to increase recognition of the Istanbul Chamber of Industry, deepen its familiarity and make it an institution that does not only follow agenda, but also constitutes the agenda.

• OUR POLICY ON INFORMATION TECHNOLOGIES

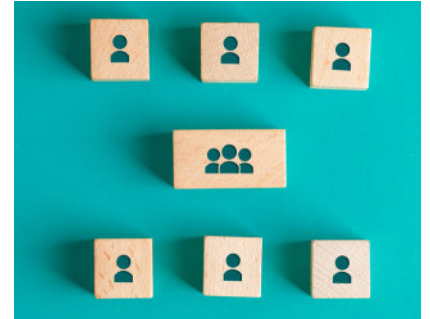

- Our policy aims to meet technological needs of our chamber by using ever-developing technologies,
- Follow and implement all changes and innovations thoroughly with this purpose,
- Ensure information security of our Chamber by continuously developing information security management process,
- And produce quick, effective, high-quality services at global standards for our members and employees with its strong corporate infrastructure.

• OUR HUMAN RESOURCES POLICY

Within the frame of our principle of ensuring development, employment and the satisfaction of our human resources that we consider the most important factor in determining quality of service that we produce with our vision to improve Turkish Industry at a global scale by increasing sustainable competitive power and competences of our Member Industrialists, our Human Resources Policy aims to manage our employees with a corporate point of view, which

- Considers their suggestions and expectations,
- Encourages them to create innovative business idea,
- Prioritizes approaches that consolidate commitment,
- Considers improvement of special life as much as business life and
- Constitutes infrastructure required to enable them to perform their duties with job satisfaction and high motivation.

• OUR FINANCIAL POLICY

Financial policy aims to use and assess financial resources of the chamber correctly and efficiently and conduct and record financial implementations and reportings realistically and neutrally and transparently by considering potential risks in line with relevant regulation and generally-accepted accounting principles.

OUR SERVICE APPROACH

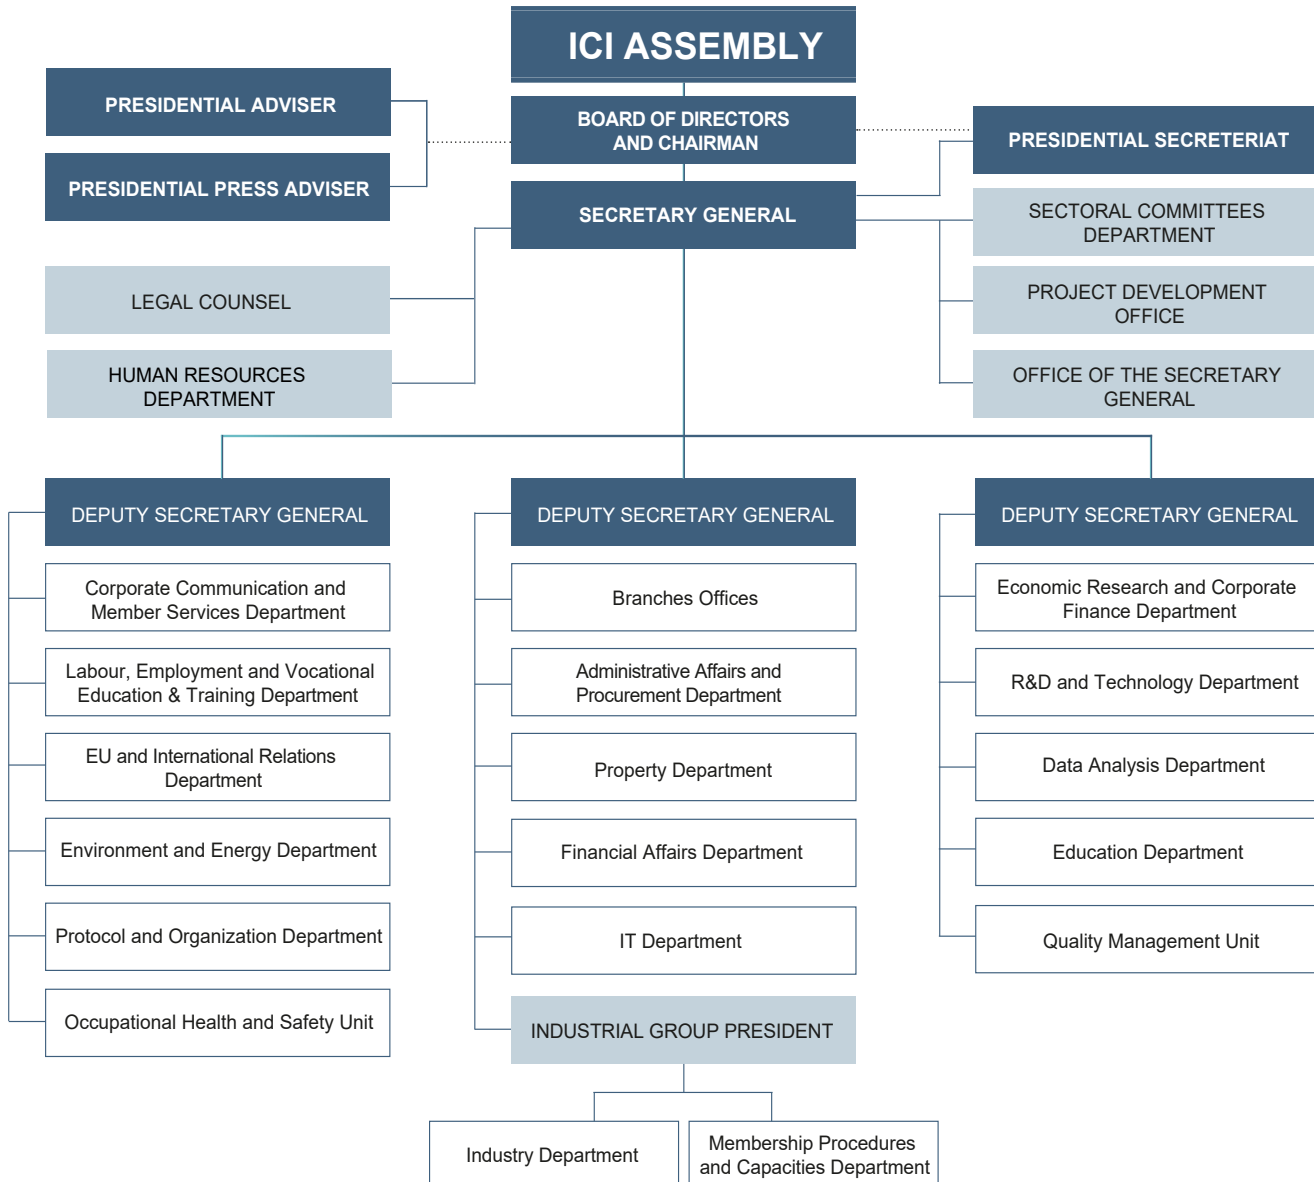

As one of the largest and most well-established representative organizations of Turkish industry, the Istanbul Chamber of Industry draws its strength from its members. Accordingly, ICI strives to;

- Improve communications with our members on a constant basis,
- Create significant values for its members by working as a night-pharmacy of our industry and doing high-quality, effective and efficient works,
- Ensure that Sectoral Committees communicate and cooperate with relevant associations and professional organizations to take common decisions in identifying and solving problems, and communicate such decisions to concerned organizations by Sectoral Committees within the knowledge of ICI management,
- Make more effective use of the press to share the quality knowledge and opinions developed by the Istanbul Chamber of Industry,
- Enhance cooperation and communication chiefly with our parent organization TOBB (Turkish Union of Chambers and Commodity Exchanges) as well as with universities, research institutions, all relevant organizations and NGOs to carry out quantifiable studies that produce effective results.
- Effectively use the internet and social media in order to better promote the projects, services and activities of our chamber; reinforce our communication with members and convey our opinions clearly to the public.
- Enhance the brand value of long-time monthly periodical of the Istanbul Chamber of Industry named "Sanayi", turn it into a reference guide for the industry and a major communication tool between our members and the public.

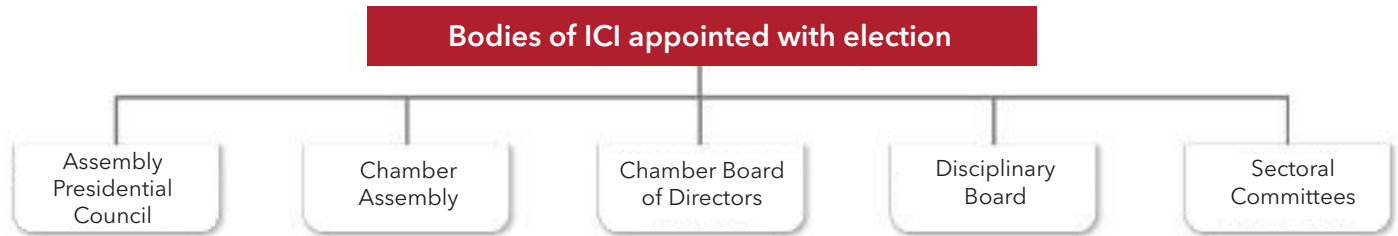

ORGANIZATION CHART

BODIES OF OUR CHAMBER

As with all chambers in Turkey, ICI conducts activities through elected bodies and General Secretary in accordance with the Law No 5171 at the Union of Chambers and Commodity Exchanges of Turkey No. 5174.

• ASSEMBLY PRESIDENTIAL BOARD AND CHAMBER ASSEMBLY

Elected by registered members of the chamber from Sectoral Committee members every four years, the Chamber Assembly is the largest supervisory body within the Chamber. ICI's Assembly Presidential Board is composed of the president, two vice presidents and one secretary, all of whom elected from among the Assembly Members for a term of four years.

Chairman and members of the Board of Directors, Disciplinary Board and Sectoral Commissions are elected by the Chamber Assembly. The assembly convenes once per month to discuss a specific agenda, and may form additional commissions from among its members to investigate and evaluate specific developments when necessary. ICI organization also includes an Accounts Examination Commission and a Legislative Commission. Assembly meetings are held on the fourth Wednesday of every month.

• BOARD OF DIRECTORS

The executive body of the Chamber, the Board of Directors is composed of the Chairman and ten members, elected by the Chamber Assembly for a term of four years. The ICI Board of Directors selects two Vice Chairmen and one Board Treasurer among its members, assigning duties according to the members' area of expertise.

• DISCIPLINARY BOARD

The Chamber's Disciplinary Board has six members, chosen by the Chamber Assembly among Chamber members who do not serve on the Assembly, for a term of four years. The Disciplinary Board conducts disciplinary investigations on Chamber members in according to legislative principles and procedures, and recommends the suitable disciplinary action or fines against Chamber members.

- **SECTORAL COMMITTEES**

Members of our chamber are categorized in various sectoral groups representing the entire manufacturing industry. "Sectoral Committees" consist of representatives selected by the members of each sectoral group. Elections are held every four years. Sectoral Committees convene every month to discuss topics related to their sectors and submit proposals to problems brought forward by the Board of Directors.

Joint Meetings of Sectoral Committees and meetings with ministries are other platforms for Sectoral Committee members to voice their opinions, identify problems of the industry, and discuss potential solutions. ICI considers these events a significant meeting point for the industry, offering the opportunity to integrate public agencies directly into the process of identifying and solving problems.

OUR SERVICES

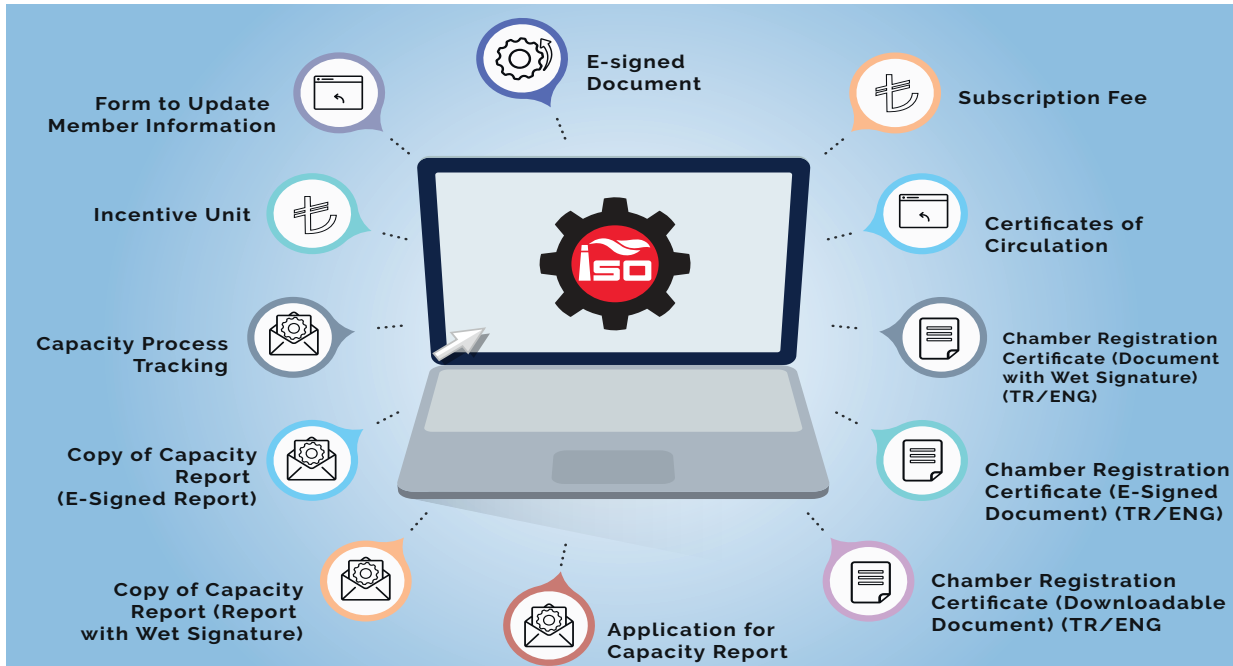

REGISTRATION, REPORTING AND CERTIFICATION SERVICES

The Istanbul Chamber of Industry improves and develops its fields of service in line with the needs of members as well as activities conducted by the law.

• ONLINE SERVICES

- Obtain e-signed chamber registration certificates,
- Obtain e-signed capacity reports,
- Register for training programs and seminars organized by our Chamber,
- Access information on companies available on our database.

www.iso.org.tr/online-hizmetler

• MEMBERSHIP AND SUBSCRIPTION

Industrialists with a headquarter or at least one production facility located in Istanbul and with 10 or more employees are obliged to register with our chamber according to Law No. 5174 on the Union of Chambers and Commodity Exchanges of Turkey and the Law on Chambers and Commodity Exchanges. In an effort to avoid overlapping subscription fees for our members that have memberships in other chambers, we divide the subscription fee at the moment of registration.

Membership: +90 212 252 29 00 / 223-224

Subscription Fee: +90 212 252 29 00 / 231

• CAPACITY REPORT

We provide capacity reports required for many industry-related processes including Industrial Registry Certificate, Food Registry Certificate, Inward Processing Authorization Certificate, Investment Incentive Certificate and Turkish Goods Certificate. The report, valid for two years from the date of issuance, will offer many advantages including low-cost electricity, customs transactions, export incentives and covering of fair expenses.

Contact: +90 212 252 29 00 / 224-227

• EXPERTISE REPORTS

We offer solutions to issues experienced by companies by providing various expertise reports and certificates on exports, imports, customs, taxation, incentives and industry required by legislation to be submitted to related agencies and issued including research and development brought by public institutions to our Chamber.

Contact: +90 212 252 29 00 / 453

• CHAMBER REGISTRATION CERTIFICATE

Our Chamber issues registration certificates verifying your membership to our chamber, which you may use for transactions with public bodies, as well as for visa applications.

Contact: +90 212 252 29 00 / 224-223

• DOMESTIC GOODS CERTIFICATE

Upon fulfillment of certain conditions, we issue Domestic Goods Certificates for goods listed on the Industrial Registry Certificate which are already produced and have at least 51% domestic input. In public tenders, companies with Domestic Goods Certificate have an advantage at a rate specified in the tender document (up to 15% maximum) over companies without such certificates. Our Chamber also issues Certificate of Manufacturing Competence, Manufacturer's Certificate and Certificate of Good Conduct for Domestic Manufacturing.

Contact: +90 212 252 29 00 / 261

• CERTIFICATES OF CIRCULATION

We issue Certificates of Origin and of Circulation for your foreign trade activities as well as other certificates required by EU projects.

You may obtain from our chamber Certificate of Origin required for foreign trade transactions, A.TR, EUR.1 Certificates of Circulation as well as FORM A certificate.

Contact: +90 0212 252 29 00 / 172
disticaretonay@iso.org.tr

• INVESTMENT INCENTIVE CERTIFICATES

We carry out all the revisions, extension of time and completion processes, thereby facilitating the issuance of Investment Incentive Certificates for investments made in İstanbul.

Contact: +90 212 252 29 00 / 265

• TURKISH GOODS CERTIFICATE

We issue Turkish Goods Certificate which certifies the origin of goods to be used in projects conducted within the scope of the Instrument for Pre-accession Assistance (IPA) of the EU.

Contact: +90 212 252 29 00 / 172

• DIGITAL TACHOGRAPH

Our chamber issues Digital Tachograph Cards which record the movements of road vehicles and details of certain working times of drivers.

Contact: +90 212 252 29 00 / 204

• APPRENTICE, JOURNEY AND MASTER-LEVEL CERTIFICATES

We approve Apprentice, Journey and Master-Level Certificates as introduced by Law No. 3308 on Vocational Education.

Contact: +90 212 252 29 00 / 350

• ICI INCENTIVE UNIT

We offer "Incentive Unit" services in an effort to prevent complications due to a number of institutions and implementations that provide support and incentive, guide companies with investment plans or plans to improve business processes towards the most suitable type of support and to inform them on legislation and practices in this area.

OUR PROJECTS AND ACTIVITIES

We organize pioneering Industry Congresses with a visionary and engaging approach.

INDUSTRY CONGRESSES

Since 2002, we have been organizing Industry Congresses for our members to better understand the conditions of global competition and seize the opportunities globalization presents. Our well-received Congresses are designed to be rich in content and to serve as a visionary platform of discussion equipped with advanced and innovative technologies.

Organized with a brand new format since 2014, the main themes of our Industry Congresses were "Great Encounter with the 21st Century" and "Human and Culture to Overcome Mediocracy" and "Local but Universal, Today but Future" with an interactive and new-generation congress format.

www.iso.org.tr/kongre/EN/

Vocational high
schools promise
a bright future

VOCATIONAL EDUCATION

With **“Vocational School Cooperation Model”** created in cooperation with Ministry of National Education, Ministry of Industry and Technology, Istanbul Technical University, Istanbul Chamber of Commerce and Istanbul Chamber of Industry on January 25, 2019, a vocational education movement that has never been seen before in the country’s history has been started.

Within the scope of the Vocational School Cooperation Model that is the strongest one conducted so far, an innovative and effective governance model is implemented with a model aiming to design educational programs in schools that provides vocational and technical education with the sector and prepare graduated students for the business life by increasing their quality.

In schools supported by the ICI,

- Schools are managed by more than 100 industrialists that are the members of Sectoral Committee and Assembly;
- School heads, teachers and students are provided with improving trainings, seminars and technical trips within the context of technical and vocational development;
- Productions are capitalized within the scope of circulating capital enterprises within the frame of “Producer Schools” vision of the MNE.

In this process, our 5 schools took their places among privileged schools that were selected as R&D Center in Turkey. Within the scope of the protocol that aims to consolidate quality of vocational education, while students have the opportunity to meet industry as soon as they enter into the school, they are also fully supported by industrialists that are ICI members on internship/skills education in enterprises, which is the first step to support employments in their fields in the future.

www.iso.org.tr/meip

We support innovation and entrepreneurship, the sculptors of the new age.

ENTREPRENEURSHIP

• ICI-ITU ÇEKİRDEK ENTREPRENEURSHIP ECOSYSTEM COOPERATION

As a wide ecosystem that brings together entrepreneurs, companies, investors and professionals, ITU Çekirdek Entrepreneurship Ecosystem is an entrepreneurship center open to all sectors ranging from chemistry to electronics, information to bio-genetics. In 2015, Istanbul Chamber of Industry with its vision “from entrepreneurship to industrialism” by establishing a strategical partnership with Istanbul Technical University ARI Teknokent, became one of the main stakeholders of ITU Çekirdek which is the leading incubation center, receiving the highest number of applications in our country. With its new approach, the Istanbul Chamber of Industry awards the entrepreneurs who are promising to be the industrialists of the future with the “ICI Industrialist of the Future Grand Award”.

• İSO-KOZA: ENTREPRENEURSHIP ACCELERATION PROGRAM

As part of a strategic partnership with ITU ARI Teknokent, the Istanbul Chamber of Industry will support all promising entrepreneurs for 1 year within the framework of İSO-KOZA Entrepreneurship Program on the way “from entrepreneurship to industrialism” in areas including training and consultancy with an “Industrialist Trainer” approach.

www.isokoza.com

We are preparing our industrialists for the digital future with our local technology business partners.

DIGITAL TRANSFORMATION

• ICI INDUSTRIAL DIGITAL TRANSFORMATION OFFICE PROJECT

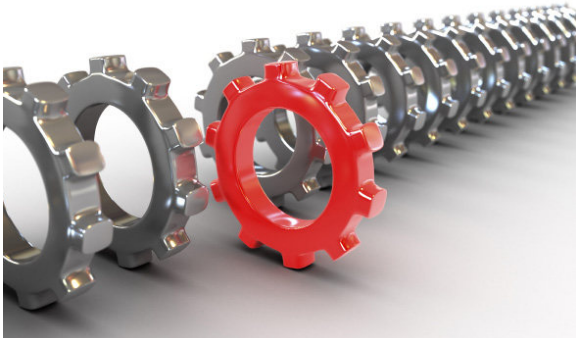

ICI Industrial Digital Transformation Office prepares our industrialists for the future with our local technology business partners. In a period when all manufacturing dynamics are reshaped in the world with smart manufacturing and digital transformation technologies, the ICI increases competitive power of the industry and adds more value to the national economy by forming the road map of digitalization of its members.

It supports industrial companies to understand importance of digital transformation and take necessary steps on this matter. It consolidates infrastructure of our industrialists in this field by raising human resources to work in smart manufacturing technologies. It also supports local technology business partners that will be able to serve in digital transformation implementations and supports them to raise their position not as users of technology, but as producers of technology.

www.isodijital.com

ENCOURAGE FOR LOCAL PRODUCTION AND DOMESTIC PRODUCT

We brought together developers of major projects in Turkey with and our members and launched many initiatives for supporting local production and the use of domestic goods.

We prioritize and support local production and purchase of domestic goods in various fields ranging from the defence industry to use of local machinery and nuclear energy to wind plants.

ICI put the “sustainability” concept in the center of its environment and energy activities.

SUSTAINABLE ENVIRONMENT AND ENERGY

• SUSTAINABILITY

As an effective and strong stakeholder that guides Turkish industry climate in this new industrial competition in which environmental and social factors are in the center of manufacturing, the ICI continues to be guide on sustainability. Adopting working on necessary matters of transformation for sustainable development as a principle, the ICI will continue to be the most important supporter of industry sector which features as a locomotive in development of our country.

• ENVIRONMENT

Our Chamber has been supporting its members on environmental issues since 1990. As of 2012, the Chamber has been carrying out environment, energy and occupational health and safety activities under the Environment and Energy Department. Gathering relevant stakeholders around the same table with its industrial section and creating Environment Specialization Committee, the ICI is actively involved in training, consultancy, opinion building, environmental projects, environmental awards, , mining and non-sanitary enterprise licenses and occupational health and safety.

• ENERGY

Our energy activities focus on energy efficiency in the industry, using local and renewable energy resources, local manufacturing of energy equipment, financing instruments in energy, electricity supply from various resources, on-site electricity generation, ISO 50001 Energy Management System and development of local energy industry. We established the Energy Specialization Committee in order to fully address energy issues involving industries, public sector, universities and related non-governmental organizations.

• ENVIRONMENT AND ENERGY EFFICIENCY AWARDS

We continue to grant Environment awards that we started in 1995 in order to promote environmental protection, use energy and raw materials more efficiently, produce less waste and encourage eco-friendly manufacturing. As of 2013 the awards have been renamed “Environment and Energy Efficiency Awards”.

Contact: +90 212 252 29 00 / 150 - 151 - 152

We contribute to development of occupational health and safety processes with an employee-oriented approach.

OCCUPATIONAL HEALTH AND SAFETY

• STANDARD FOR COMBAT PANDEMIC AS SPECIFIC TO COVID-19

As the Istanbul Chamber of Industry, we are aware of the importance of Occupational Health and Safety. We have established Occupational Health and Safety Unit as of 2020 in order to handle Occupational Health and Safety matter under a separate title. With power and support of our members, we cooperate with the Ministry of Family, Labor and Social Services and all parties of the matter and work to create a healthier, safer and more sustainable working environment. We organize trainings and seminars to contribute to development of occupational health and safety activities, provide consultancy services and technical support whenever our members need.

Istanbul Chamber of Industry conducts an activity “Standard for Combat Pandemic as Specific to Covid-19” in order to create convenient working conditions, ensure sustainability not to cause risk in terms of occupational health and safety and most importantly establish a systematic structure.

Within the scope of the standard, a risk classification has been made for Covid-19 as a first. Thanks to risk measurement table and scoring system, risk groups of our industrial facilities will be able to be determined easily according to various criteria such as district, number of employees, closed and open areas and facilities will be able to realize measures and implementations specially prepared for risk groups.

**EEN supports your expansion into new markets
and development of new technologies...**

ENTERPRISE EUROPE NETWORK

Enterprise Europe Network is a European Commission funded organization that offers single point of contact services to businesses on EU legislation, foreign trade, technology, and digitalization. The Network has been serving our companies since 2008 from its office at the Istanbul Chamber of Industry. Enterprise Europe Network Project is supported under EU COSME Program and continues to provide services for companies in Istanbul with the partnership of KOSGEB (Small and Medium Industry Development Organization) and Sabancı University. "External Economic Cooperations", "Technological Cooperations" and the "EU's R&D Subsidy Programs" form the basis for the Enterprise Europe Network.

Enterprise Europe Network (EEN) Istanbul aims to;

- Provide information about EU policies, legislation and support mechanisms,
- Form EU and non-EU international trade collaborations and develop partnerships in the fields of innovation and technology,
- Mediate the transfer of technology and analyze the technology levels of companies,
- Encourage companies to utilize the EU's R&D funding programs.
- Raise awareness levels of companies on internal innovation, digital transformation, etc. and provide company-specific consultancy services.

Contact: +90 212 252 29 00 / 175

• EUROPEAN UNION

Our Chamber informs our companies regularly in process of adaptation and harmonization of sectors to the EU by following developments in the EU closely and adaptation activities of Turkey with experts on the European Union.

**We bring our members
and new markets together.**

FOREIGN TRADE

For ICI members to have a stronger competitive presence in foreign markets and to seize the opportunities in potential markets, our chamber carries out information, education and consultation activities in matters regarding foreign trade.

• COUNTRY DAYS

We organize country days; to explore new markets, to improve our economic relations with different countries and to discover opportunities for cooperation and investment.

• SECTORAL TRADE DELEGATIONS

As part of the Ministry of Trade Market Research and Market Penetration Support, we take our members to different countries. In sectoral delegations, we organize bilateral meetings between our members and the delegations from other countries to explore the current opportunities for trade and cooperation in potential markets.

Contact: +90 212 252 29 00 / 171

• CONSULTANCY FOR TARGET MARKET RESEARCH

ICI determines target market for its members and shares potential customer information gathered through various international databases. It aims to increase members' competitiveness in international markets by analysing competing countries and trade statistics to reveal rising potential markets. Additionally, ICI delivers alternative supply channels information for import market.

Istanbul Chamber of Industry supports education for added value in industry.

ISO ACADEMY, TRAININGS AND SEMINARS

• ICI ACADEMY

Istanbul Chamber of Industry develops and conducts training activities as seminars, mini MBA programs, class trainings and online trainings. With our training and development activities that are managed under the organization of ICI Academy, we aim to increase competitive power level of our member companies with innovative options to contribute vocational development of industry professionals.

Mini MBA Programs

In mini MBA programs educational structure of which are designed specifically, professionals and representatives and managers of companies have the opportunity to receive applied training from trainers who are competent both sectorally and academically.

Titles of ICI Mini MBA Program:

- Corporate Innovation
- E-Export
- Energy
- Foreign Trade
- R&D Management
- Digital Transformation
- Corporate Finance
- Defense Industry
- New Technology Investment
- Family Companies and Institutionalism
- Design Management

ISO 500: is a unique treasure of information that mirrors the development of Turkish industry...

RESEARCH AND PUBLICATIONS

Istanbul Chamber of Industry prepares various researches, publications and reports in order to support development of Turkish industrial sector and contribute to determination of road maps to the future.

www.iso.org.tr/publications/

• TURKEY'S TOP 500 INDUSTRIAL ENTERPRISES

As the most important brand value of the Istanbul Chamber of Industry with over 50 years of experience, "Turkey's Top 500 Industrial Enterprises (ISO 500)" study mirrors the industrialization and development process of Turkey with a big data set. Creating a unique treasure of information about the development of Turkish industry, ICI 500 attracts a great deal of attention from the economic and business world

www.iso500.org.tr/home-page

"Turkey's Second Top 500 Industrial Enterprises (ISO Second Top 500)" is also prepared with ISO 500 in every year as of 1998. Inclusion of the SMEs, which are getting more and more important today, and the measurement of their performance are among the main assets of the ISO Second Top 500.

ISO 500 magazine is also published in English.

Contact: +90 212 252 29 00 / 181 -182

PMI: the fastest and most reliable leading indicator of growth...

• ICI TURKEY MANUFACTURING PMI AND TURKEY SECTORAL PMI REPORTS

Purchasing Managers' Indices (PMIs) are indicators of economic activity conditions that are among the most closely followed by the global markets as well as the financial press. PMIs play a defining role in economy thanks to being among the first data to be announced each month on conditions of economic activities, being published before official data, and its correlation with data realized.

ICI has collaborated with a global brand, Markit Economics to calculate Purchasing Managers Index (PMI) in Turkey and share it with our industrialists and public opinion on economy in each month. "Istanbul Chamber of Industry Turkey-PMI Manufacturing Industry Report" and "ICI Turkey Sectoral PMI" report are shared with the public in each month under the roof of the ICI.

www.iso.org.tr/projects/ici-turkey-manufacturing-pmi/

• TURKEY EXPORT CLIMATE INDEX REPORT

Cooperation established between the Istanbul Chamber of Industry and IHS Markit within the frame of PMI activities is maintained with improvements.

The Turkey Manufacturing Export Climate Index is calculated by weighting together national PMI data on output trends from PMI surveys. Weights are derived from statistics on the relative importance of individual trading partners' contributions to the exports of Turkish manufacturers.

As a preliminary indicator, the index enables us to monitor development and potential of the main export markets of our country and obtain tips on which markets should be focused on.

You may follow our events in our
This Month in the ICI brochure.

• THIS MONTH IN ICI BROCHURE, E-BULLETIN AND INTERNAL TV BROADCASTING

Istanbul Chamber of Industry has been publishing a brochure named "This Month in the ICI" since 2018 in order to promote its activities and services. Including events in the monthly activity calendar, the brochure also contains projects and services for members to follow.

E-bulletin format of the brochure is sent to all members via a-mail and a similar content is also broadcast on internal TVs of the ICI on a weekly manner.

• SECTORAL REPORTS

ICI contributes to the determination of the road maps of manufacturing sectors during the process of developing competitive power of Turkish industry. With this purpose, the project of "Sectoral Strategies of ICI Sectoral Committees in Global Competition" is continued with new sectoral studies.

Prepared with contributions and participations of representatives of Sectoral Committees, sectoral foundations and vocational enterprises, these reports are so important in terms of developing competence of our country to produce sectoral strategy and enhance corporate cooperations.

• ICI FINANCIAL DEVELOPMENTS REPORT

Since it is important to follow up macro-economic trends today, the ICI informs its members about current developments in the global and Turkish economy. It shares "ICI Financial Developments Report" that is prepared in the first week of each month with the ICI Members. The report reflects realizations of the previous month and provides brief information about the latest developments in the global and Turkish economy.

SOCIAL RESPONSIBILITY

ISTANBUL CHAMBER OF INDUSTRY FOUNDATION (ICIF)

Istanbul Chamber of Industry Foundation (ICIF) was established by the members of the Istanbul Chamber of Industry on March 21, 1994 in order to provide support to solve issues of our country on educational and social fields.

The objective of Istanbul Chamber of Industry Foundation is to conduct activities beneficial for our country and Turkish industry and produce projects proper to industrialists of Istanbul. Most importantly, the foundation aims to create permanent solutions on vocational education and need of qualified personnel in line with recommendations and demands of our members, involve successful students in scholarship system and raise a well-trained generation that will be the future Turkish industry.

Foundation also aims to popularize our knowledge and experience that we obtained as a result of our activities across the country and contribute to national development on this issue.

The foundation commits itself to develop by producing new projects every year, learn and share while developing and gives utmost importance in realization of activities we conduct on behalf of or members in on a correct and transparent ground and shows ultimate attention to be worthy of our government and nation on every matter with our activities and standing.

• ICI MEMORIAL FOREST FOR 20 THOUSAND MEMBERS

Istanbul Chamber of Industry supports enlargement of afforested areas both in Turkey and in Istanbul. Showing the importance that it gives in environment with social responsibility awareness at every turn, the ICI has dibbled 41 thousand saplings across the country so far within the scope of afforestation works.

The ICI realized its "ICI Memorial Forest for 20 Thousand Members" project in Şile on November 30, 2019 as dedicated to 20 thousand members. Certificates of ICI Memorial Forest for 20.000 Members were shared with our members.

Our chamber is enlivened with
our art gallery.

ICI ART GALLERY

ICI Art Gallery has been active since 2004 to support culture and art within the scope of our Chamber's social responsibility studies.

Our exhibitions cover original and contemporary works of painting, sculpture, ceramics, photography, industrial design, graphics and textile.

Select artworks from artists featured in our Art Gallery are included in the ICI Art Collection.
